

January 2020

Happy New Year!! 2020 is going to be a wonderful year, so hopefully you're prepared for good things heading your way. Kicking off the year will be a Public Meeting Tuesday, January 28th at Calvary Chapel from 6:00-7:00 pm. This meeting will be an opportunity for business owners, community members and the construction team to come together and learn and share about the second phase of the Downtown Revitalization. Anthony Guho, Guho Corp, will be giving a presentation on their process and how it can affect businesses and the community during their discussed timelines. Phase II is scheduled to begin construction in late spring but is currently in a pre-construction process. **Attendance from the community is encouraged!**

The logo for Mountain Home, featuring the words "Mountain Home" in a cursive font with a mountain range silhouette above the text, set within a green banner.

YOU'RE INVITED TO A

Public Meeting

PHASE II - DOWNTOWN REVITALIZATION

JANUARY 28 | CALVARY CHAPEL | 6-7 PM

Phase I Update

Phase I of the Downtown Revitalization Project is still a work in progress but will soon be wrapped up. After the completion of infrastructure and safety measures were put in place, traffic control patterns were lifted. Travelers have adapted quickly to the new traffic patterns and lane configuration, creating a smooth transition. Furnishings are consistently being added into the downtown core along Main Street, inching us closer and closer to the final product. Once the weather warms up this spring, landscaping can be added into the planter beds and new concrete planter pots.
